

Roundtable Session – FieldManager and SiteManager 10:15 – 12:00, Tuesday, October 9, 2007

This time allotment was used to show a side by side comparison of the FieldManager and the SiteManager programs. Sheri Meyerhoff and Kevin Martin demonstrated the SiteManager and FieldManager programs, respectively. Janet Wastenev acted as moderator, requesting Sheri and Kevin each to perform specific functions so the audience of over 50 people could see the steps involved in doing so for each program. They also explained what they were doing as they were going through the processes. The informal atmosphere allowed questions to be asked and answered as they came up during the presentation.

Based on informal feedback, the session was a huge success even though we were able to cover only a few of the many functions of each program in the time available.
