The minutes of the 2007 meeting were reviewed. Bob Lewis made a motion to approve minutes as posted. Janie Valdez seconded the motion; motion carried.

Election of officers

2008 Coordinator: Tom De La Portilla-TX
2008 Assistant Coordinator: Bob Lewis-KY

Updates from past year

SiteManager 3.9 was released; LIMS was a major component, as well as a number of Construction enhancements. TRT for Web Trns*Port was active this past year. It was noted that Windows 2000 will come off the list as a supported platform for client/server in the coming year; Windows Vista will become a tested platform for client/server next year.

TMR Discussion

There was discussion on the need for spell check in Change Order Explanations; there is no current TMR and this would need to be funded as an enhancement. Bob Lewis made a motion to add this as an enhancement. Bob Lewis will write it and get it to Jeremy for presentation at the business meeting. Joani Wissinger seconded the motion; the motion carried.

Added 10-16-08

TMR for Spell check to Change Order

Request spell check to be added to change order explanations. This would be same implementation used to add spell check to DWR and Diary for Version 3.9a. Reference to TMR 2118 Note needs to be entire length of field. (see TMR 10140 from Virginia)

NOTES from 2118

Spell check has been implemented in the SM3.8a release on DWR (TMR7247) <Rajesh Trivedi Info Tech 2008-07-09>

Done in SM 4(?). Browsers may have Spell Check ability by the time Web-Transport is released. Firefox browser already does. <Jeanne Thompson Info Tech 2008-09-02>

TMRs -

Endorsed -- None

Deleted -- None

Items from Floor

There was discussion for a proposed resolution for full support for client/server SiteManager until the majority of the user community implements Web Trns*Port Construction and all interfaced modules. No agreement was reached although concern was noted; this issue was tabled until next year.

A motion to adjourn the meeting was made by Steve Carter and seconded by Joni Wissinger.
